# BIMER BONSAI CLUB

## BONSAI INTENSIVE & WORKSHOP July 2022

Bimer Bonsai Club is proud to present the Bonsai Intensive and Workshop. Designed to improve the knowledge and skills of members through intense species-specific modules.

### Purpose

The purpose of Bonsai Intensive is to share the knowledge and passion of bonsai at a species level. With detailed information, background, examples and explaining how a bonsai hobbyist would develop their own bonsai in that species. Then workshop your own trees.

### Concept

The underlying concept is to create an event with an intensive focus on specific plant species and plant varieties for bonsai. For specialist or passionate hobbyists to share the end-to-end process of developing world class bonsai for that species. They then work on their trees.

### Operation

Bimer Bonsai will include a 'Species Guide' resource for each participant to assist members with particular species.

- Each presenter will run through the content outlined
- This will be a 1 ½ hour information session, the 1 ½ hour workshop on participant or club trees.
- There will be 2 sessions running at a time.
- Participants are expected to bring their own trees for contribution to the session.
- There will be coffee, tea and biscuits provided but lunch is at the participants cost

## Activity: What will be covered

The program would cover the following for each species.

- Background of the species
- Care
- Propagation
- Repotting
- Seasonality
- Bonsai Development
- Display
- Special Techniques

### The Bimer Bonsai Intensive will have

- 2 x 3-hour sessions being run at a time. Participants must choose which they wish to attend
- Saturday Afternoon will be a normal Black Pine session for all club members and **FREE**.
- Each presenter will have a paid presenter and an advanced graduate future presenter assisting
- Bimer Bonsai Trade table open everyday

Cost per session only \$20
